

Protect your property and your family with our Portable Time Lapse Security Camera!

This portable “stand-alone” time lapse device is designed for a wide variety of security applications. It can easily be fixed-mount in your home or business to monitor the activities of your home or business to keep your property, your family or your pets safe and secure while you are away. It can also easily be dashboard-mount in almost any vehicle to capture still video images of driving conditions or sceneries in front of you. Time and date is recorded to be shown on provided AVI Player to determine exactly when an event occurred.

Burglaries and accidents can happen at any time, without notice. This device easily captures a sequence of high resolution color images of intruders or accidents on a SD memory card for immediate or later playback on your PC. Supply still video images as direct evidence to your insurance company or helping Police identify the thieves to recover your valuables.

Besides, this portable device is ideal for time lapse photography. For example, gradual opening up of a flower, a sunset or sunrise, or passing clouds along the sky.

What is a Time Lapse?

Time lapse is where a camera takes a sequence of still images at preset intervals between each image to be shown as a moving video sequence. The advantage of time lapse recording is the ability to extend the maximum recording time so longer periods of time can be captured on media storage.

Features:-

- ♦ Time lapse recording time up to 4320 hours
- ♦ High resolution color image 1280*1024
- ♦ Flexible time lapse mode from 1 second up to 3 minutes
- ♦ Optional Loop recording permits to overwrite old data and start recording again unattended when memory is full
- ♦ Forward/Reverse Play & Frame by Frame playback
- ♦ Time and date recorded
- ♦ Motion object search function
- ♦ Selectable playback speed from 1fps~30fps
- ♦ Uses SD/SDHC memory card up to 8GB (not included)
- ♦ Video images is savable to JPEG
- ♦ Three power options: DC 5V adaptor, DC 12V car cigarette lighter (optional), or 2*AAA alkaline batteries (not included)

Specification:

Product Name	Time Lapse Security Camera
Sensor Type	1.3M CMOS sensor
Time Lapse	1 second up to 3 minutes
Resolution	320x240, 640x480, 1280x1024
Focusing	Fixed, 0.5M~infinity
Video Image	AVI Format
Still Image	JPG Format
Data Storage	SD card up to 2GB (upgradeable to 8GB)
Power Options	DC 5V, DC 12V or 2 AAA alkaline batteries
Unit Size	90mmX56mmX25mm (HxWxD)
Unit Weight	50g (without batteries)
Operation System	Windows 2000/XP/Vista

Ideal for.....

Home, Office, Vehicle, Apartment, Small Shop, Manager's Office, Store/Warehouse, Holiday House, Child Care Center, Laboratory, Construction Site, Gate/Driveway
